MOVEMBER®

MOVEMBER®

Movember is **MORE** than
just a moustache.

One-in-six of your mates
will get diagnosed with
prostate cancer within
their life.

Don't you think that's a
little **too high**?

Think about life without
one of your bro's.

How about your mates,
family, & loved ones
would be without you?

**It doesn't have
to be that way.**

HEAD TO YOUR GP AND **GIVE**
YOUR JEWELS A REAL **LOOK**

movember  • [Follow](#)

movember  There are a few things in life that age like fine wine. One of those is sporting a moustache .

It's not only us who want you to show off your pride and joy every #movember but your family, friends and loved ones.

Remember that Movember is #morethanamoustache. We're about #prostatecancerawareness. Prostate cancer is the leading cause of cancer incidence in men, and we want you to join us in fighting it.

A 5-minute assessment from your GP every 3 years can save your life.

We want to remind you that every Movember, ask your dad, pops, boss, and mates if they've had their tackle checked.
